

Teign Estuary Transition

Celebrating the local community – towards sustainable living

Transition Initiatives seek to move towards a low energy, sustainable future, in response to the challenges of diminishing oil and gas supplies known as 'Peak Oil', and climate change.

We believe that these challenges offer opportunities for a step-by-step 'transition' to a sustainable future:

We want to create a healthier, happier environment to live in. We want to inspire creative solutions in the transition to a low carbon future. We share ideas, help to generate awareness and enthusiasm, and above all aim to have fun.

Are you interested in joining us to encourage:

- Increasing use of local food and other supplies
- Gardening to increase food-production
- Alternative energy sources & energy-efficiency
- Transport systems to help reduce car-use
- Well-being and sense of community
- Something else you'd like to achieve

For further details or to contact us:
