

Teign Estuary Transition – Earth Hour & TAAG Community Space (first fortnight in January)

Monday 4 December 2017 8pm at TAAG – Mike & Fran.

A few of us have been discussing Earth Hour 2018, and, how we might improve the TET 'Introductory Board' which we use at exhibitions.

1. Money – TET currently has a balance of £543.30 after receiving a donation of £200 from Cllr. Alison Eden's fund for Earth Hour 2017 and transferring £100 to TAAG for same.
2. Earth Hour 2018 will centre around cycling, and a group brought together by Fran is putting together a programme. If they are successful in closing part of the promenade for cycling there will be a cost which the above money could help to meet.
3. The TET board needs freshening up. We'd like to make the themes 'hope' and 'local'. If anyone reading this has some ideas or comments to offer – please do! In the meantime we will try and put together some stories and statistics on electric cars, batteries, energy in schools in Totnes, local wood supplies, and hydropower in North Devon.

The next meeting is provisionally scheduled for 6pm Thursday 4 January 2018 – for last minute adjustments to the exhibition board. Ideas & comments to info@teigntransition.org.uk
